## Strong Public Schools make Strong Communities.

Texas could have the best public schools in the country. We have the money. We rank second in the country in Gross Domestic Product.

**Instead**, we rank in the bottom 10 states for public education funding. Classes are overcrowded. Crucial programs that help maintain a calm, productive learning environment are being cut or understaffed. **We would have to increase our annual per student funding by \$3,000 just to be average** in the country.

In the last session, the Texas Legislature had a **\$32.7 Billion surplus**. They did not use any of it to increase the basic allotment for public schools.

**Instead**, the Governor called **four special sessions** in a failed effort to pass a “School Choice” program that would have given \$8,000 vouchers to students who want to leave public school and go to private schools. The annual per student allotment for public schools is only \$6,160.

Vouchers would serve only a small number of our kids. How does that make our educational system stronger? Our communities stronger?

**It's time to vote for ALL kids.**

**The Texas Legislature is responsible for funding PUBLIC schools.**

**The most important thing we can do for our Texas communities is to elect legislators who will forget about vouchers and vote to fund our public schools!**

# WILL YOU HELP ?

Public schools in Texas serve **ALL** kids. They are funded and regulated by the Texas legislature. If we want high quality public education for **ALL** kids in Texas, we must elect legislators who will prioritize funding public schools. Here is our plan:

- 1. Evaluate.** - Evaluate the candidates regarding their support for public school.
- 2. Identify and connect.** - Find potential voters in McLennan County who want to vote to prioritize public schools. Get their contact information.
- 3. Inform.** - Get the voters information they need to vote for candidates who will prioritize public schools.
- 4. Get out the vote!** - Remind the voters when it is time to vote. Make sure they know when and where they can vote.
